

Explaining a forecast change with confidence

ELSA EDITION - PRACTICE / ALIGN / DECIDE

CORE SENTENCES

- **We are revising the outlook to reflect current run-rate evidence while preserving upside as a clearly defined scenario.**
- Let me distinguish the confirmed facts from our current interpretation.
- The conclusion is directionally clear, although one assumption still needs validation.
- I would recommend a targeted response rather than a broad intervention.

WORD BANK / COLLOCATIONS

working assumption

We will use this as our working assumption.

directionally sound

The recommendation is directionally sound.

critical path

This dependency sits on the critical path.

course-correct

We still have time to course-correct.

CHINGLISH -> NATURAL ENGLISH

I think maybe this method has some problems.

-> The approach is directionally sound, but two assumptions need further validation.

Please push your team and give me the data quickly.

-> Could we agree a firm cut-off and flag any dependency that may prevent delivery?

I don't agree with you.

-> Can we pressure-test that assumption?

QUICK CORRECTION

Not: I think maybe this method has some problems.

Use: The approach is directionally sound, but two assumptions need further validation.

PHRASE OF THE DAY

What would need to be true for us to support this recommendation?

ALIGN ON OBJECTIVE -> RECOMMEND ACTION -> DEFINE WHEN TO REVISIT
